

Putnam City Football Season Review 2019

How did team meet last years' goals?

Although we did not reach our goal in terms of overall record for the year, Putnam City Football was able to accomplish a majority of our season's goals. As a program we were able to continue to build on the culture of brotherhood and trust, with a roster of young men who genuinely cared about each other, the program, and Putnam City High School. Pirate Football was also able to make substantial strides on the football field, improving statistically in all categories from a year ago and building critical fundamentals and work ethic for the returning players next year. With a young inexperienced roster, now with another year under their belt and the values taught last season, the Pirate look forward to a promising 2020 football season.

How did the season finish?

The 2019 Pirate Football season finished with a splash, compiling more yards, and points towards the end of the season offensively and continuing to be extremely competitive and tough on the defensive side of the ball. All three phases of football continually improved as the season went on, and with a large number of starters returning for the 2020 season, the Pirates look to continue making big strides.

Accomplishments or big wins?

Putnam City football was able to beat historic rival Putnam City West to open district play. The game against PC West was a hard fought victory, highlighting the grit, toughness, and resiliency Pirate Football represents.

What did the team take away from the season?

The value of brotherhood, empathy, and trust. Cementing lifelong relationships with teammates and coaches that will carry our student-athletes through any adversity life may bring.

Most memorable moment?

The victory against Putnam City West and Team Retreat in August 2019
